SECTION 1.0 • CORPORATE IDENTITY & PROFILE

Corporate Overview & Key Data Fact Sheet

Founded in **1995**, **RR Construction (Pvt) Ltd** has grown over three decades into one of Sri Lanka's foremost 100% Sri Lankan-owned general civil engineering and infrastructure construction enterprises.

Operating at the prestigious **CIDA Grade CS2** rating (the highest tier awarded by the Construction Industry Development Authority), we provide integrated turnkey solutions spanning **highways, expressways, bridges, maritime harbours, railway tracks, landslide mitigation, water supply, and piling foundations**.

Backed by a direct workforce of **2,000+ professionals** and a proprietary fleet of over **1,000 heavy construction machines**, our operations are strengthened by our own asphalt batching plants, aggregate quarries, M-sand facilities, and concrete batching plants island-wide.

Figure 1.1: Vertically integrated heavy civil infrastructure execution across Sri Lanka.

OFFICIAL CORPORATE FACT SHEET & REGULATORY CREDENTIALS	
Company Name	**RR Construction (Pvt) Ltd**
Registration Numbers	Company Reg: **PV 11346** • CIDA Registration: **C-10171**
CIDA Grading	**Grade CS2** (Highest National Classification for Civil Engineering)
Year Established	1995 (Over 30 Years of Uninterrupted Civil Construction Excellence)
Quality Certifications	**ISO 9001:2015** (QMS) • **ISO 14001:2015** (EMS) • **ISO 45001:2018** (OH&S)
Direct Human Capital	2,000+ Qualified Engineers, Project Managers, Surveyors, and Skilled Technicians
Equipment Resources	1,000+ Self-Owned Heavy Construction Machines, Piling Rigs, Dredgers & Transit Mixers
Headquarters	No. 865, Dr. Danister de Silva Mawatha, Baseline Road, Orugodawatta, Colombo 09
Primary Bankers	Hatton National Bank, Seylan Bank, Sampath Bank, Cargills Bank, Pan Asia Bank, NTB & NDB

OUR VISION

"Passion for Engineering Excellence"

To be Sri Lanka's most trusted and innovative heavy infrastructure developer, building enduring national assets that accelerate socio-economic progress.

OUR MISSION

Integrity, Safety & On-Time Delivery

Delivering superior civil engineering contracts through technical rigor, complete resource self-reliance, environmental responsibility, and zero compromise on safety.

EXCELLENCE	INTEGRITY	SELF-RELIANCE	SAFETY FIRST	INNOVATION	COMMUNITY
Highest quality standards	Transparent governance	Proprietary plant assets	Zero-harm HSE culture	Advanced civil methods	Lasting national impact

Corporate Governance: 100% Sri Lankan Directorship • Registered PV 11346

Regulatory Compliance: CIDA CS2 Registered Contractor (C-10171)

Management Systems: ISO 9001, 14001 & 45001 Accredited

SECTION 2.0 • BOARD & EXECUTIVE LEADERSHIP

Executive Leadership & Managing Director's Statement

Mr. Ranjith Senadhera
Managing Director • Founder

FOUNDER & CHIEF EXECUTIVE

Mr. Ranjith Senadhera S.D.

B.Sc. Engineering (Hons) • M.Eng. (Industrial Engineering & Management)

As the Founder and Managing Director of RR Construction (Pvt) Ltd since its inception in 1995, Mr. Ranjith Senadhera has provided the strategic vision and engineering leadership that elevated the company from a specialized civil engineering contractor into a nationally distinguished CIDA CS2 developer.

Under his direct leadership, RR Construction pioneered full vertical integration within Sri Lanka's civil engineering sector — investing aggressively in heavy machinery fleets, asphalt plants, metal quarries, and concrete plants. This self-reliance ensures that clients receive guaranteed quality, cost certainty, and timely project delivery without reliance on third-party suppliers.

ACADEMIC FOUNDATION	CORPORATE LEADERSHIP	INDUSTRY CONTRIBUTION

OFFICIAL EXECUTIVE STATEMENT

Message from the Managing Director

> ***"We do not merely construct physical infrastructure; we construct the enduring foundations of Sri Lanka's economic progress through uncompromising engineering discipline."***

When we established RR Construction in 1995, our core ambition was simple yet uncompromising: to build a civil engineering organization capable of undertaking the most demanding engineering assignments in Sri Lanka with complete self-sufficiency and international quality standards. Over the last three decades, that vision has materialized into reality.

By investing continuously in our 2,000+ strong engineering team, our 1,000+ heavy machinery fleet, and our dedicated material production plants, we have eliminated the supply-chain vulnerabilities that often challenge our industry. As we look ahead, we remain dedicated to engineering national progress with the same passion that founded our journey.

Yours sincerely,

Ranjith Senadhera S.D.
Managing Director • RR Construction (Pvt) Ltd

CIDA Registration: C-10171 | Grade CS2

Leadership Philosophy: Technical Rigor • Resource Independence • Zero Delay | **Executive Office: Baseline Road, Colombo 09** | **Established: 1995**

SECTION 3.0 • CORPORATE TRACK RECORD

Three Decades of Growth & Strategic Milestones

A chronological overview of RR Construction's transformation from a specialized regional civil contractor into a fully integrated CIDA CS2 national infrastructure leader:

1995

Foundation & Early Civil Assignments

Commenced operations in 1995, executing early civil works in collaboration with ED Zublin AG on the Central Bank Extension Project, establishing uncompromising standards of engineering quality.

2003 - 2006

Maritime & Large-Scale Water Infrastructure

Executed Queen Elizabeth Quay (QEQ) port facilities at Colombo Port (2003) and the landmark 172,000 Cum/day Ampara Water Treatment Plant (2006), establishing national water & harbour credentials.

2007 - 2009

Major River Bridges & Structural Steel Works

Delivered landmark structural crossings including the 116.4m Matara Mahanama Bridge (2007) and four Austrian modular steel bridges across Sri Lanka (2009), demonstrating heavy structural expertise.

2012

Port Infrastructure & Marine Coastal Works

Completed the Oluvil Port Coastal Protection and Colombo Port Expansion Harbour Infrastructure service road and heavy-duty paving works for Sri Lanka Ports Authority (SLPA).

2016 - 2018

International Footprint — Republic of Maldives

Mobilized international marine fleets to deliver three coastal protection contracts for the Government of the Maldives: R. Vandhoo Seawall (2016), Seenu Hulhudhoo (2017), and Ha. Filadhoo Harbour (2018).

2017

Pioneering Landslide Mitigation & Geotechnics

Partnered with RDA and JICA on the Landslide Disaster Protection Project (LDPP Package 02), introducing specialized soil nailing, sub-surface horizontal drainage, and shotcreting to Sri Lanka.

2019 - 2023

Railway Corridors & Expressway Development

Teamed with IRCON International on Northern Railway Line track rehabilitations (Maho-Anuradhapura and Anuradhapura-Vavuniya), and delivered Central Expressway (CEP Section 2 & 3) earthworks.

2024 - Present

CS2 Integrated National Infrastructure Leader

Operating at Grade CS2 with 2,000+ personnel and 1,000+ machines, executing Gandara Fishery Harbour, Kurikadduvan Jetty, Cyclone Ditwah emergency railway works, and rural iRoad networks.

Three Decades of Growth: 1995 Foundation to CIDA CS2 National Tier | **Operational Scale: 2,000+ Personnel • 1,000+ Machinery Fleet** | **Contract Record: 100% Handover Rate**

SECTION 4.0 • TECHNICAL DOMAINS & SCOPE

Multidisciplinary Civil Engineering Capabilities

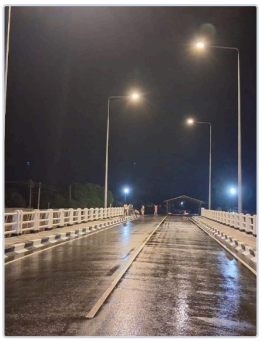

RR Construction brings three decades of proven engineering execution and proprietary equipment resources across eight specialized civil infrastructure sectors:

4.1 SECTOR DOMAIN

Highways & Expressways

Turnkey earthworks, sub-base stabilization, dense bituminous macadam, and hot-mix asphalt wearing course paving for national highways, Central Expressway packages, and rural iRoad networks.

4.2 SECTOR DOMAIN

Bridge Construction & Overpasses

Design-and-build and construct-only structural bridges, prestressed concrete girder river crossings, flyovers, viaducts, and multi-cell underpass culverts designed for extreme structural loads.

4.3 SECTOR DOMAIN

Maritime, Harbours & Dredging

Deep-water fishery harbours, rock armour breakwater revetments, quay walls, concrete boat ramps, capital basin dredging, and coastal protection works across Sri Lanka and the Maldives.

4.4 SECTOR DOMAIN

Landslide Mitigation & Geotechnics

Specialized slope stabilization, drilled soil nailing, tie-back ground anchors, high-tensile wire mesh drapery, shotcreting, and sub-surface horizontal drainage in hill-country terrain.

4.5 SECTOR DOMAIN

Piling & Deep Foundations

Bored cast-in-situ concrete piling up to 1,500mm diameter, micro-piling, diaphragm wall construction, and heavy pile load testing utilizing proprietary hydraulic rotary drilling rigs.

4.6 SECTOR DOMAIN

Railway Civil Works & Track Formation

Main line and northern line railway track rehabilitation, precast concrete sleeper installation, ballast screening, bridge abutment reconstruction, and rapid post-cyclone track restoration.

4.7 SECTOR DOMAIN

Water Supply, Reservoirs & Dams

Municipal water treatment plants (up to 172,000 m³/day), raw water river intakes, high-pressure DI transmission pipelines, earthen dam rehabilitation, and canal diversion gates.

4.8 SECTOR DOMAIN

Institutional Buildings & Materials Lab

Multi-storey commercial and institutional complexes backed by in-house accredited materials laboratories for continuous aggregate, concrete cube, and asphalt mix testing.

CIDA Grade CS2: Certified in Highways, Bridges, Maritime, Water & Geotechnics

National Coverage: Active Project Operations Across All 9 Provinces

SECTION 5.0 • VERTICAL INTEGRATION & FLEET

In-House Production Plants & 1,000+ Machinery Fleet

Complete vertical integration guarantees zero third-party delays, uncompromised material quality, and full scheduling independence across all major civil contracts:

ASPHALT BATCHING, CRUSHER & M-SAND FACILITIES

Yakawewa Asphalt Plant

Medawachchiya, North Central

Fully automated high-output hot-mix asphalt plant supplying Binder and Wearing Courses for northern highway networks.

Thudugala Aggregate Crusher

Kalutara District, Western

High-capacity hard-rock quarry and multi-stage crushing plant supplying railway ballast, aggregate base course, and concrete stone.

Omanthai Aggregate Quarry

Vavuniya District, Northern

Strategic northern quarry supplying graded aggregate for northern railway track rehabilitations and iRoad highway packages.

Veerapuram M-Sand Plant

Vavuniya District, Northern

Environmentally sustainable Manufactured Sand (M-Sand) washing and grading plant producing premium-grade river-sand alternatives.

ISLAND-WIDE READY-MIX CONCRETE BATCHING NETWORK (06 PLANTS)

Ampara Plant
Eastern Province

Mirusuvil Plant
Jaffna District

Ithathapana Plant
Kalutara District

Vadduvakal Plant
Mullaitivu District

Galgamuwa Plant
Kurunegala District

Gandara Plant
Matara District

1,000+ Units Self-Owned Heavy Construction Plant Fleet

Our proprietary machinery inventory includes Sri Lanka's first **Wirtgen W200F Cold Milling Machine**, Finnish **Watermaster Classic IV Multipurpose Amphibious Dredgers**, Vogele Super Asphalt Pavers, Hamm Tandem Vibratory Rollers, Bauer & Sany Hydraulic Rotary Piling Rigs, Mobile Telescopic Cranes, Heavy Tracked Excavators, Motor Graders, and a 50+ fleet of Ready-Mix Transit Mixers.

Asphalt Output: 120 TPH automated plant	**Crusher Capacity: 350+ Cu.m / day**	**Concrete Batching: 60 Cu.m / hr per plant**	**Fleet Maintenance: Central Workshop Peliyagoda**

SECTION 6.0 • LANDMARK CIVIL WORKS

Iconic National Infrastructure Projects

A showcase of eight landmark civil engineering developments that demonstrate RR Construction's multi-disciplinary execution capabilities across Sri Lanka:

2026

Gandara Fishery Harbour Construction

Client: Ministry of Fisheries / CFHC

Deep-water harbour development featuring heavy rock armour breakwater revetments, basin dredging, and reinforced concrete quay facilities.

2020 - 2024

Central Expressway Project (Section 2 & 3)

Client: Road Development Authority (RDA)

Heavy earthworks, deep cut-and-fill formations, box culverts, and structural overpasses along the Mirigama-Kurunegala expressway corridor.

2023 - 2026

Maho - Anuradhapura Railway Rehabilitation

Client: IRCON International Limited

High-speed railway track bed renewal, embankment stabilization, ballast screening, and Cyclone Ditwah emergency restoration.

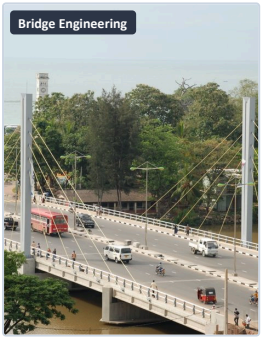

2012

Colombo Port Expansion - Service Roads

Client: Sri Lanka Ports Authority (SLPA)

Construction of heavy-duty arterial container logistics service roads, terminal access paving, and storm drainage infrastructure.

2007

Matara Mahanama Bridge (116.4m)

Client: Road Development Authority (RDA)

Prestigious 116.4-meter river crossing across the Nilwala River, engineered with heavy RC substructures to withstand monsoon flood events.

2006

Ampara Water Treatment Plant (172,000 m³/day)

Client: National Water Supply & Drainage Board

High-capacity municipal water treatment plant, river intake pump houses, clarifiers, and transmission networks serving Ampara.

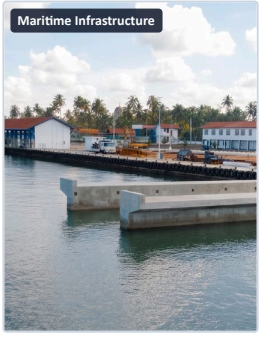

2017 - 2025

Landslide Disaster Protection (LDPP & RLVMMP)

Client: RDA / Ministry of Defence / NBRO

Specialized geotechnical slope stabilization across 32+ high-risk sites in Nuwara Eliya, Kandy, Hatton, Badulla, and Ratnapura.

2021

Wellamankara Fishery Harbour — Wennappuwa

Client: Ministry of Fisheries

Complete fishery harbour development featuring rock breakwaters, basin dredging, concrete jetties, and onshore landing infrastructure.

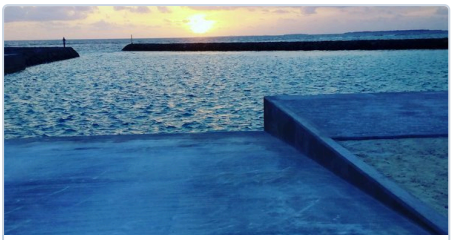

Institutional Delivery: Multi-Billion Rupee Civil Infrastructure Contracts Commissioned

Key Clients: RDA, SLPA, CFHC, NWSDB, IRCON & JICA

SECTION 7.0 • OVERSEAS OPERATIONS & CLIENTS

International Projects & Strategic Clients

OVERSEAS MARITIME & COASTAL INFRASTRUCTURE (REPUBLIC OF MALDIVES)

Maldives • 2018

Ha. Filadhoo Harbour Construction

Client: Ministry of Housing, Maldives

Harbour dredging, rock armour breakwater, and concrete quay wall construction across northern atolls.

Maldives • 2017

Coastal Protection in Seenu Hulhudhoo

Client: Ministry of Environment, Maldives

Engineered rock revetments and groyne fields protecting community shorelines from severe tidal erosion.

Maldives • 2016

Harbour Seawall in R. Vandhoo

Client: Ministry of Environment, Maldives

Reconstruction and structural upgrading of island harbour seawall and boat landing infrastructure.

ACTIVE ONGOING PROJECT DEPLOYMENTS (2025 – 2026)

Highways & Roads
Colombo-Galle corridor, Northern Lot 03, and rural road networks.

Major Bridges
10+ ongoing bridge reconstructions and overpasses island-wide.

Maritime & Jetty
Kurikadduvan Jetty structure and Beruwala harbour ramp works.

Landslide Safety
MOD/NBRO Packages 10D, 10F, and 10J slope stabilization.

Railway Civil
Cyclone Ditwah emergency restoration with IRCON International.

MAJOR INSTITUTIONAL CLIENTS & STATE AUTHORITIES

- Road Development Authority (RDA)
- National Water Supply & Drainage Board
- Urban Development Authority (UDA)
- Ministry of Irrigation & Mahaweli
- IRCON International Limited (India)
- National Building Research Org. (NBRO)
- Ministry of Fisheries / CFHC
- Sri Lanka Railways (SLR)

Joint Ventures: Collaborative Civil Delivery with ED Zublin AG, Hyundai Engineering & IRCON International

Procurement: FIDIC Red & Yellow Book Standards

SECTION 8.0 • PROJECT ARCHIVE

Completed Projects (Highways, Expressways & Roads)

Featured case studies of national highways, expressways, and provincial road development packages completed across Sri Lanka:

Central Expressway Project - Section 2 (Package-A)

Client: Road Development Authority (RDA)

Heavy earthworks, sub-base construction, asphalt wearing course, box culverts, and structural overpasses along the Mirigama-Kurunegala corridor.

Second iRoad Program — Badulla District (23.96 km)

Client: Road Development Authority (RDA)

Rehabilitation, widening, asphalt concrete surfacing, and reinforced concrete roadside drainage systems across mountainous rural terrain.

Second iRoad Program — Kilinochchi District (53.60 km)

Client: Road Development Authority (RDA)

Upgrading and asphalt paving across 16 rural road corridors in Northern Province, significantly enhancing community and agricultural mobility.

Rural Roads Rehabilitation in Rathnapura (30.12 km)

Client: Road Development Authority (RDA)

Bituminous surfacing, reinforced concrete retaining structures, and slope stabilization along steep hilly tea-estate road corridors.

Rural Roads Rehabilitation in Palindanuwara (20.80 km)

Client: Road Development Authority (RDA)

Full-depth sub-base stabilization, dense graded asphalt concrete overlay, and structural culvert replacements in the Kalutara District.

SAGT Harbour Access Road & Port Civil Infrastructure

Client: Hyundai Engineering / SLPA

Construction of heavy-duty arterial container logistics corridors and industrial-grade interlocking concrete block paving at Colombo Port.

SECTION 9.0 • PROJECT ARCHIVE

Completed Projects (Bridges, Flyovers & Crossings)

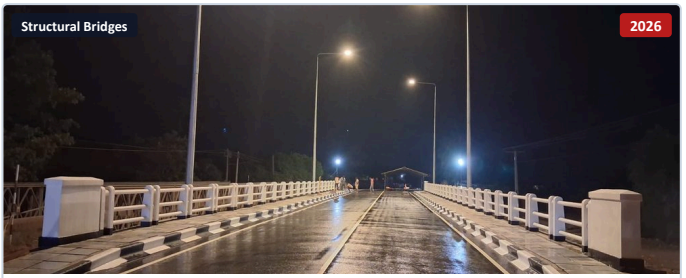

Featured structural case studies of multi-span river crossings, prestressed bridges, overpasses, and coastal lagoon causeways:

Reconstruction of Bridge 4/1 on Horawela - Pitigala Road

Client: Road Development Authority (RDA)

Reinforced concrete substructures, precast prestressed concrete girders, composite deck slab, and engineered approach embankments.

Reconstruction of Bridge 12/1 on Paranthan - Mullaitivu Road

Client: Road Development Authority (RDA)

Major flood-resilient bridge reconstruction on Route A035, featuring cast-in-situ bored piling and reinforced concrete abutments.

New Structural Bridge at CH. 6+100 Udappuwa Town

Client: Road Development Authority (RDA)

Multi-span reinforced concrete structural bridge spanning the tidal lagoon waterway, connecting regional coastal fishing communities.

Four Steel Bridges Project (Hirana, Molkawa, Lathpadura)

Client: MCE Austria / RDA

Assembly and erection of Austrian modular composite steel truss bridges, RC piers, and riverbank protection works across Western Province.

Southern Transport Development Project — Structures (50-57km)

Client: Road Development Authority (RDA)

Heavy structural viaducts, multi-cell underpass box culverts, and high-clearance overpass flyovers on the Southern Expressway corridor.

Construction of Sellakatharagama 6/2 Bridge

Client: Road Development Authority (RDA)

Two-span prestressed bridge across Menik Ganga, engineered to resist seasonal torrential floods and heavy cultural pilgrimage traffic.

SECTION 10.0 • PROJECT ARCHIVE

Completed Projects (Maritime, Fishery Harbours & Dredging)

Featured maritime engineering case studies of deep-water fishery harbours, rock revetments, coastal protection, and basin dredging:

Boat Launching Ramp at Beruwala Fishery Harbour

Client: Ministry of Fisheries

Heavy reinforced concrete slipway and ramp structure with underwater tremie concrete casting and seabed contour preparation.

Negombo Lagoon Dredging — Lellama Site II (Package IV)

Client: Ministry of Fisheries

Capital channel deepening, organic silt suction dredging, and perimeter geotextile containment to improve artisanal fishing navigation.

Negombo Lagoon Dredging — Regina Road (Package III)

Client: Ministry of Fisheries

Hydraulic desilting, waterway widening, and bund formation using specialized amphibious dredgers to restore natural estuarine flow.

Bank Protection Works of St. Sebastian North Canal

Client: Metro Colombo Urban Dev / SLLRDC

Cantilever sheet pile driving, reinforced concrete capping beams, and canal bed desilting under the Metro Colombo flood mitigation initiative.

Dredging of Fishery Anchorage Basin in Passiyoor, Jaffna

Client: International Organization for Migration (IOM)

Deep basin excavation and navigation channel deepening through hard seabed strata to secure safe round-the-clock anchorage for Northern fishermen.

Rehabilitation of Passiyoor Fishery Anchorage Basin

Client: IOM / UNOPS

Heavy rock armour breakwater construction, concrete boat landing jetties, and coastal apron protection works along Jaffna coastline.

SECTION 11.0 • PROJECT ARCHIVE

Completed Projects (Water Treatment, Reservoirs & Canals)

Featured municipal water infrastructure case studies covering large-scale water treatment plants, river intakes, and transmission mains:

Matara Stage IV Water Supply — Raw Water Intake

Client: National Water Supply & Drainage Board (NWSDB)

Turnkey civil construction of river intake well, pump house structure, electrical substation, and raw water transmission pipelines.

Pipe Laying Distribution Main in Katana Central Zone

Client: National Water Supply & Drainage Board (NWSDB)

Trenching, installation of high-pressure ductile iron (DI) water mains, isolation valve chambers, and road surface reinstatement.

Rehabilitation of Kalmadu Scheme Headworks Dam

Client: Ministry of Irrigation — IWWRMP

Earthen dam embankment heightening, upstream rip-rap armouring, spillway crest repairs, and sluice gate overhauls in Kilinochchi.

Remedial Works at Ulhitiya - Rathkinda Dams

Client: Mahaweli Authority of Sri Lanka

Slope protection remediation, seepage cutoff curtain grouting, spillway training wall repair, and crest access road reconstruction.

Kolonnawa Canal Diversion Scheme — Stage I

Client: Ministry of Megapolis & Western Development

Heavy reinforced concrete flood channel construction, retaining revetments, and high-capacity stormwater flow diversion structures.

Kolonnawa Canal Diversion Scheme — Stage III

Client: Ministry of Megapolis & Western Development

Canal embankment stabilization, sheet pile driving, gabion wall protection, and channel widening to safeguard Greater Colombo from floods.

SECTION 12.0 • PROJECT ARCHIVE

Completed Projects (Landslide Mitigation & Railway Civil)

Featured specialized engineering case studies of slope stabilization, horizontal subsurface drainage, and railway corridor track works:

Cyclone Ditwah Emergency Railway Reconstruction

Client: IRCON International Limited

Rapid emergency mobilization for flood-damaged Northern railway track bed restoration, ballast packing, and culvert reconstruction.

Anuradhapura to Vavuniya Railway Track Rehabilitation

Client: IRCON International Limited

Track renewal, prestressed concrete sleeper installation, embankment stabilization, level crossings, and station platform civil upgrades.

Landslide Mitigation at 05 Locations in Nuwara Eliya

Client: Ministry of Defence / NBRO (RLVMMP)

High-altitude soil nailing, high-tensile wire mesh drapery, sub-surface horizontal drains, and cascaded RC retaining walls.

Slope Stabilization on Hatton - Maskeliya - Delhouse Road

Client: Ministry of Defence / NBRO

Anchored soldier pile retaining walls, micro-piling, shotcreting, and deep geotechnical drainage along high-risk pilgrimage corridor.

RLVMMP Landslide Mitigation at Nursing Training School Kandy

Client: Ministry of Defence / NBRO

Geotechnical slope stabilization securing hospital complex, utilizing drilled soil nails, tie-back ground anchors, and drainage cascades.

Rectification of Critical Unstable Slope at NIFS Kandy

Client: National Building Research Org. (NBRO)

Bio-engineering vegetative slope greening, erosion control mats, rock bolt anchoring, and structural toe retaining walls.

SECTION 13.0 • CONTRACT AUDIT ARCHIVE

Completed Projects (Highways, Expressways & Road Networks)

Official registry of national highway corridors, expressway packages, and rural road networks delivered across Sri Lanka:

15	Matara Mahanama Bridge (116.4m)	Road Development Authority (RDA)	Matara District, SP	2007	COMPLETED
16	Widening of Hartal Bridge in Ports of Colombo	Sri Lanka Ports Authority	Colombo District, WP	2012	COMPLETED
17	Pudavkattu Bridge Structural Overpass Civil Works	UNOPS	Trincomalee / Yan Oya, EP	2010	COMPLETED
18	Badalkumbura Multi-span River Box Bridge	Road Development Authority (RDA)	Badulla / Monaragala, Uva	2011	COMPLETED
19	Kurikadduvan Jetty Improvement & Structural Pier	Road Development Authority (RDA)	Jaffna & North, NP	2026	COMPLETED
20	Molkawa River Bridge Rehabilitation Package	MCE Austria	Kalutara District, WP	2009	COMPLETED

Specialized Bridge Engineering Capabilities: Prestressed Concrete Girders • Bored Piling up to 1,500mm • Modular Steel Trusses • Scour Protection

SECTION 15.0 • CONTRACT AUDIT ARCHIVE

Completed Projects (Fishery Harbours, Ports & Coastal Works)

Documented track record of deep-water fishery harbours, rock breakwaters, capital dredging, and coastal protection works:

19 Marine Sites
DELIVERED PROJECTS

Myliddy Harbour
PHASES I & II TURNKEY

Oluvil & Colombo
BREAKWATERS & PORTS

Maldives & SL
REGIONAL CAPABILITY

#	PROJECT TITLE & ENGINEERING SCOPE	CLIENT / EMPLOYER	LOCATION / PROVINCE	YEAR	STATUS
01	Removal and Leveling of Accumulated Sea Sand at Kirinda Fishery Harbour	Ceylon Fishery Harbours Corporation	Hambantota District, SP	2026	COMPLETED
02	Procurement of Construction of Boat Launching Ramp at Beruwala	Ministry of Fisheries / CFHC	Beruwala, Kalutara	2026	COMPLETED
03	Reactivation and Reconstruction of Myliddy Fishery Harbour in Northern Province – Phase II	State Ministry of Fishery Harbour Development	Jaffna & North, NP	2021	COMPLETED
04	Construction of Gandara Fishery Harbour	Ministry of Fisheries / CFHC	Matara District, SP	2026	COMPLETED
05	Negombo Lagoon development Project, Dredging of Lagoon-Lellama Site II (Stage I, Package IV).	Ministry of Fisheries / CFHC	Gampaha District, WP	2022	COMPLETED
06	Construction of Fishery Harbor at Wellamankara Wennappuwa	Ministry of Fisheries / CFHC	Puttalam District, NWP	2021	COMPLETED
07	Negombo Lagoon development Project Stage I, Package III Dredging of Lagoon- Near Regina Road.	Ministry of Fisheries / CFHC	Gampaha District, WP	2019	COMPLETED
08	Reconstruction of Myliddy Fishery Harbor - Phase I	Ministry of Fisheries / CFHC	Jaffna & North, NP	2019	COMPLETED
09	Bank Protection Works of St.Sebestian North Canal	Metro Colombo Urban Dev	Island-wide Network	2019	COMPLETED
10	Ha. Filadhoo Harbour Construction (Maldives)	Ministry of Housing (Maldives)	Republic of Maldives	2018	COMPLETED
11	Anchorage Facility at Peraliya Landing Site	Ministry of Fisheries / CFHC	Galle District, SP	2018	COMPLETED
12	Coastal Protection Structures in Seenu Hulhudhoo (Maldives)	Ministry of Environment (Maldives)	Republic of Maldives	2017	COMPLETED
13	Upgrading of Harbor Seawall in R.Vandhoo (Maldives)	Ministry of Environment (Maldives)	Republic of Maldives	2016	COMPLETED
14	Dredging of Fishery Anchorage in Passiyoor in Jaffna District.	International Organization for Migration (IOM)	Jaffna & North, NP	2013	COMPLETED
15	Rehabilitation of Passiyoor Fishery Anchorage in Jaffna DS Division at Jaffna District	International Organization for Migration (IOM)	Jaffna & North, NP	2013	COMPLETED
16	Oluvil Port Project Coastal Protection	Sri Lanka Ports Authority	Ampara District, EP	2012	COMPLETED
17	Rock Revetment at Beruwala	Kundanmals group	Beruwala, Kalutara	2006	COMPLETED
18	Queen Elizabeth Quay Project - Colombo Harbour	Hyundai Engineering	Colombo District, WP	2003	COMPLETED
19	Harbour Basin Dredging up to -3m MSL Depth at Suduwella Anchorage	Ministry of Fisheries / CFHC	Suduwella Anchorage, Matara	2013	COMPLETED

Specialized Marine Engineering Fleet: Watermaster Classic IV Multipurpose Amphibious Dredgers • Heavy Core-Loc & Armour Revetments • Concrete Quay Walls

SECTION 16.0 • CONTRACT AUDIT ARCHIVE

Completed Projects (Water Supply Schemes, Reservoirs & Irrigation)

Documented civil engineering contracts for water treatment facilities, raw water river intakes, transmission mains, and dam headworks:

10 Key Schemes	150+ km	172,000 m³/day	NWSDB / ADB
REGISTERED CONTRACTS	PIPELINES LAID	WTP TREATMENT SCALE	INSTITUTIONAL EMPLOYERS

#	PROJECT TITLE & ENGINEERING SCOPE	CLIENT / EMPLOYER	LOCATION / PROVINCE	YEAR	STATUS
01	**Rehabilitation of Kalmadu Scheme Headworks**	**Ministry of Irrigation / Mahaweli**	Kilinochchi District, NP	2023	COMPLETED
02	**Matara Stage IV Water Supply Project - Raw Water Intake**	**National Water Supply & Drainage Board**	Matara District, SP	2022	COMPLETED
03	**Pipe Laying Distribution Main in Katana Central Zone**	**National Water Supply & Drainage Board**	Gampaha District, WP	2022	COMPLETED
04	**Kolonnawa Canal Diversion Scheme - Stage I.**	**Ministry of Megapolis & Western Dev.**	Colombo District, WP	2020	COMPLETED
05	**Construction of Flood Gate With Culvert Near Thalangama Tank**	**Ministry of Megapolis & Western Dev.**	Colombo District, WP	2020	COMPLETED
06	**Kolonnawa Canal Diversion Scheme - Stage III**	**Ministry of Megapolis & Western Dev.**	Colombo District, WP	2020	COMPLETED
07	**Remedial Works at Ulhitiya - Rathkinda Dams**	**Ministry of Irrigation / Mahaweli**	Mahaweli System C, Badulla	2017	COMPLETED
08	**Distribution Mains in Eheliyagoda W.S.S.**	**National Water Supply & Drainage Board**	Ratnapura, Sabaragamuwa	2016	COMPLETED
09	**Laying of DI/uPVC Pipes & Fittings for Embilipitiya - Middeniya Road.**	**National Water Supply & Drainage Board**	Embilipitiya / Hambantota	2015	COMPLETED
10	**Water Treatment Plant - Ampara (172,000 Cum/day)**	**National Water Supply & Drainage Board**	Ampara District, EP	2006	COMPLETED

Ampara Water Treatment Plant
172,000 Cu.m / day • NWSDB
Turnkey intake pumping station, clarifiers, and filtration plant.

Kalmadu Reservoir Headworks
Ministry of Irrigation • Kilinochchi
Rehabilitation of earthen dam bund, spillway gates, and sluices.

WATER TREATMENT PLANTS & DISTRIBUTION TRANSMISSION

Turnkey construction of industrial and municipal water treatment plants (including the 172,000 m³/day Ampara WTP), high-pressure ductile iron (DI) and uPVC pipeline transmission networks, and clean drinking water distribution systems serving thousands of rural and urban households.

RESERVOIRS, DAM HEADWORKS & FLOOD MITIGATION

Specialized civil works in major dam remedial engineering, curtain grouting, spillway training walls, flood gates, and canal diversion schemes including critical works at Ulhitiya-Rathkinda, Kalmadu reservoir headworks, and the Kolonnawa canal diversion.

SECTION 17.0 • CONTRACT AUDIT ARCHIVE

Completed Projects (Landslide Mitigation, Railways & Structures)

Specialized geotechnical slope engineering, soil nailing, disaster protection, national railway corridors, and institutional civil structures:

30+ Slopes	20 Schemes	NBRO & WB	Railway Lines
STABILIZED SITES	REGISTERED CONTRACTS	DISASTER MITIGATION	MAIN & NORTHERN LINE

#	PROJECT TITLE & ENGINEERING SCOPE	CLIENT / EMPLOYER	LOCATION / PROVINCE	YEAR	STATUS
01	Maho to Anuradhapura Railway Line Track Rehabilitation & Ancillary Works	IRCON International Ltd (Govt. of India)	Anuradhapura, NCP	2023	COMPLETED
02	Landslide Mitigation Measures at 05 Locations in Nuwara Eliya District (RLVMMP)	National Building Research Organisation (NBRO)	Nuwara Eliya District, CP	2025	COMPLETED
03	Landslide Mitigation Measures at 05 Locations in Kegalle and Rathnapura Districts (RLVMMP)	National Building Research Organisation (NBRO)	Ratnapura, Sabaragamuwa	2025	COMPLETED
04	Landslide Mitigation Measures at 06 Location in Ratnapura District (Site No. 62,65,66,70,71,106) Under Package 6C of Reduction of Landslide Vulnerability by Mitigation Measures Project (RLVMMP)	National Building Research Organisation (NBRO)	Ratnapura, Sabaragamuwa	2025	COMPLETED
05	Landslide Mitigation Measures at 02 Locations in Matara & Hambantota Districts (Site No. 104, 151) Under Package – 06F (RLVMMP)	Ministry of Defence - Disaster Management Division	Hambantota District, SP	2024	COMPLETED
06	Emergency Reconstruction of Northern Railway Line Damaged by Cyclone Ditwah (Maho to Omanthai)	IRCON International Ltd (Govt. of India)	Vavuniya District, NP	2026	COMPLETED
07	Emergency Reconstruction of Northern Railway Line Damaged by Cyclone Ditwah (Medawachchiya to Talai Mannar)	IRCON International Ltd (Govt. of India)	Mannar District, NP	2026	COMPLETED
08	Rectification of Unstable Slope at NIFS Kandy	National Building Research Organisation (NBRO)	Kandy District, CP	2024	COMPLETED
09	RLVMMP Landslide Mitigation at Nursing Training School Kandy	Ministry of Defence	Kandy District, CP	2024	COMPLETED
10	Anuradhapura to Vavuniya Railway Track Rehabilitation	IRCON International Ltd (Govt. of India)	Anuradhapura, NCP	2023	COMPLETED
11	Landslide Mitigation in 32 Sites (Kalutara, Rathnapura, Matara)	Ministry of Defence	Ratnapura, Sabaragamuwa	2023	COMPLETED
12	Landslide Mitigation on Hatton Maskeliya - Delhouse Road	Ministry of Defence	Nuwara Eliya District, CP	2023	COMPLETED
13	Landslide Mitigation Along Railway Main Line (22 Sites)	Ministry of Defence	Central Highlands Corridor	2023	COMPLETED
14	Countermeasures at Six Locations in Sabaragamuwa & Uva	Road Development Authority (RDA)	Sabaragamuwa & Uva	2020	COMPLETED
15	Landslide Mitigation Works of Medithale - Pathanawatta	CRIP, UVA Provincial Council	Island-wide Network	2020	COMPLETED
16	Landslide Disaster Protection Project - Package 02 (Countermeasures at Six Locations in Sabaragamuwa and Uva Provinces)	Road Development Authority (RDA)	Sabaragamuwa & Uva	2017	COMPLETED
17	Sama Vihara Building Project (Havelock City)	Mireka Capital Land	Colombo District, WP	2014	COMPLETED
18	Colombo Port Expansion Project - 45m Control Tower	Sri Lanka Ports Authority	Colombo District, WP	2012	COMPLETED
19	Matara - Kamburugamuwa Hospital	Sam Hee Construction Korea	Matara District, SP	2009	COMPLETED
20	Three Storied Building at Sapugaskanda	Trelleborg Lanka	Colombo District, WP	2007	COMPLETED

Specialized Geotechnical & Railway Capabilities: Drilled Soil Nailing • Horizontal Subsurface Drains • High-Speed Ballasted Track Renewal • Emergency Rectification

SECTION 18.0 • QUALITY, HSE & SOCIAL GOVERNANCE

Quality Management, HSE & Corporate Social Responsibility

ISO 9001:2015
QUALITY MANAGEMENT

Comprehensive QA/QC protocols covering raw material batch laboratory testing through to structural handover.

ISO 14001:2015
ENVIRONMENTAL (EMS)

Eco-friendly M-Sand production, dust suppression, water recycling, and strict biodiversity conservation across site camps.

ISO 45001:2018
HEALTH & SAFETY (HSE)

Strict 'Zero Harm' safety culture, mandatory certified PPE compliance, daily toolbox talks, and 24/7 site medical preparedness.

100% Testing — QA/QC VERIFICATION

Zero Harm — SAFETY POLICY

In-House Lab — MATERIAL CONTROL

Dedicated quality assurance engineers stationed across all batching plants, quarries, and highway construction sites.

CORPORATE SOCIAL RESPONSIBILITY (CSR) & COMMUNITY IMPACT

EMPLOYEE WELFARE • GRATITUDE

Honoring Our Foundation: A Gift to Our Very First Employee

Reflecting our deep gratitude and lifelong corporate family culture, RR Construction presented a special token of appreciation to our first employee — honoring the loyalty of those who laid our company's foundation.

COMMUNITY HERITAGE • FAITH

Construction of Muddaragama Chethiyaramaya Temple

Dedicating our engineering expertise and heavy material resources to uplift rural spiritual heritage through the complete structural construction of the Muddaragama Chethiyaramaya Temple.

PEOPLE DEVELOPMENT & DIGITAL ENGINEERING SYSTEMS

Coursera AI & Professional Upskilling

Empowering engineers and managers with global AI credentials for precision project execution, analytics, and automated telemetry.

Proprietary Enterprise ERP System

Custom-built enterprise software for live site progress tracking, plant machinery telemetry, supply chains, and material allocation.

Workforce Strength: 2,000+ Direct Engineers, Technical Staff & Skilled Artisans

Safety Commitment: 100% Insured Workforce • Zero Harm Target

CORPORATE HEADQUARTERS
Colombo 09 • Sri Lanka

Main Corporate Office

No. 865, Dr. Danister de Silva Mawatha, Baseline Road, Orugodawatta, Colombo 09, Sri Lanka.

Central Mechanical Workshop

No. 626C, Samurdhi Mw, Cheenagahawela, Heiyanthuduwa, Sapugaskanda.
Tel: +94 11-2401201 • Email: rrcworkshop@sltnet.lk

ISLAND-WIDE OPERATIONAL YARDS & PRODUCTION FACILITIES NETWORK

Central Logistics Warehouse
No. 150, Keragala Estate, Keragala, Henegama.

Heavy Machine Yard
No. 504/L, Gorakagaswaththa, Biyagama.

Piling Engineering Yard
No. 301, Samurdhi Mawatha, Heiyanthuduwa.

Asphalt Batching Plant
Yakawewa Plant • Medawachchiya (NCP).

Crusher & M-Sand Facilities
Thudugala (Kalutara), Omanthai • Veerapuram.

Ready-Mix Concrete Network
Ampara, Jaffna, Kalutara, Mullaitivu, Kurunegala, Matara.

Primary Bankers: HNB • Seylan • Sampath • Cargills • Pan Asia • NTB • NDB

Company Secretary: Corporate Advisory Services (Pvt) Ltd

Auditors: Charted Accountants

"By aligning our 2,000+ workforce, 1,000+ machinery fleet, and ISO-certified quality systems, we continue to engineer resilient national infrastructure that powers Sri Lanka's economic future."
