THE COMPANY

The company started its operations in 1995 in order to cater the growing demand for quality constructions. We primarily started civil construction with ED Zublin AG in Central bank extension project as a sub-contractor, followed by many other local & international clients.

SCOPE OF BUSINESS

Our scope of work goes beyond earth works, structural concrete works, buildings, Construction of Roads, Highways, bridges, Irrigation & Drainage Canals, Water Retaining Structures, Maritime Construction, Dredging & Reclamation water towers, water treatment plants, heavy steel fabrication & erections, mechanical maintenance works etc.

Additionally, we have established a machine rental department for hiring idle resources such as heavy machinery, equipment, tools, form work material etc.

COMPANY AIM AND OBJECTIVES

Our main objective is to achieve the highest degree of customer satisfaction at correct time & correct cost using appropriate technology.

HUMAN RESOURCES

We have qualified, trained, experienced & technically sound workforce comprising:

Project Managers
Chartered Engineers
Engineers
Quantity Surveyors
Surveyors
Accountants
Technical officers
Foremen
Mechanics
Electricians
Heavy Vehicle Drivers
Machine Operators
Carpenters
Bar benders
Masons
Tillers
Plumbers

This totals around 1800 work forces that are capable in achieving any difficult milestone with pleasant attitudes proven around 27 years of history.

FINANCIAL RESOURCES

We have over 12.50 Billion financial facilities from Hatton National Bank, DFCC Bank, Sampath Bank, National Development Bank, Commercial Bank, Peoples Bank & Nations Trust Bank.

MACHINERY & EQUIPMENT RESOURCES

The company has a large fleet of heavy machinery and equipment & backup service for any large construction projects.

Our own machinery and equipment List is attached as Annexure 01.

RESOURCES PLANNING FOR THE PROJECTS

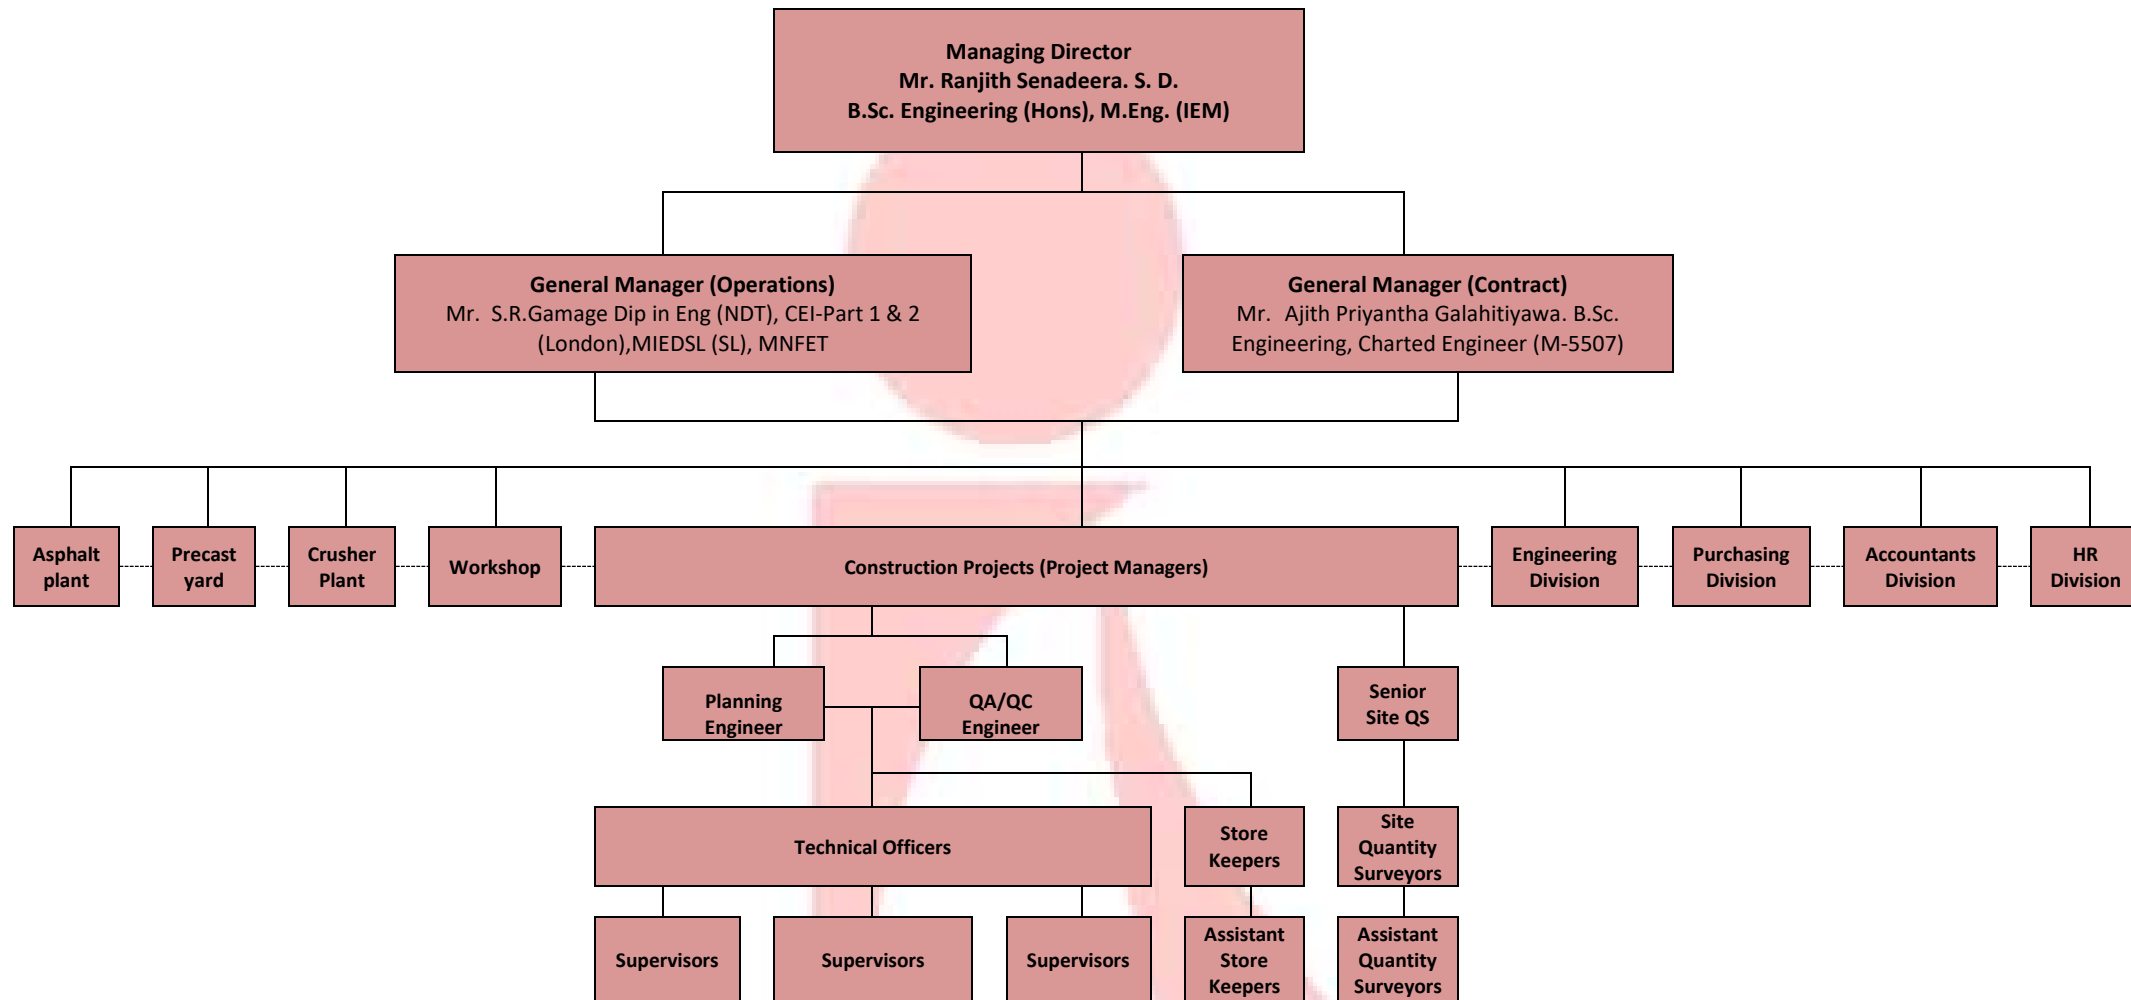

Planning of resources is an important criterion during the pre-construction stage of a project. Mismanagement may lead to delay in construction and influence the deadline of functioning of the facilities.

At the pre-construction stage of any project, the resource requirements will be planned and documented. In this regard, we prepare a construction schedule, an organization chart, schedule of plant & equipment and schedule of materials considering project duration & based on master program.
